One surprising fact you found: They have been performing for more than 20 years

Bands/Musicians/composers that influenced them: not influenced by anyone

Continued...

I think ARASHI is a living legend because they have been performing for a long time. Not only that, they had the most sold CD's in the world in 2019. ARASHI's genre is J-pop which stand for Japanese Pop. I am not sure if they influenced people in their genre, but I think they are pretty inspiring because the entire group works together very well, and they are very good.
